WHOLESALE 1955

Chrysanthemums will add much to the appearance of your nursery in late summer and fall. Their wealth of bloom, in bright colors, attract customers to your sales ground at a time when nothing else will. Plant some of the newer and different mums to interest those who want something out of the ordinary.

Each year there is much more interest in daylilies (hemerocallis). They are increasing in popularity as garden subjects. We grow more than 400 different varieties of these, so if you do not see what you want listed, write us about it.

Siberian iris, too, should not be overlooked, as they are good for both garden effect and for cutting. And echinops. Taplow Blue is not only a striking garden plant, but is also excellent for cutting, usually providing two crops if cut back.

We have added a number of fine varieties of mums to our list. Our field divisions are from plants carefully watched and rogued through the bloom season for anything not true to name or up to standard in appearance. We strive to send out healthy, true-to-name divisions, also to rectify, so far as possible, any errors.

TERMS: Cash, or 50% cash, balance C.O.D. Minimum order \$3.00. No charge for packing. Plants shipped by express collect. Small orders can be shipped by parcel post if postage is included; any amount in excess will be refunded. You may order 25 of one variety at the 100 rate.

Prices are for strong, outdoor-grown rooted divisions. All stock offered subject to prior sale, and crop conditions. Shipping will start as soon as weather permits. Orders will be shipped in rotation, as near as possible to the time wanted.

The first letter after the name denotes the type of flower: D, double; SD, semi-double; S, single. The second letter pertains to approximate bloom season: E, before Oct. 1; M, Oct. 1 to 15; L, Oct. 15 on; VE, early September or late August.

ECHINOPS TAPLOW BLUE--This is an outstanding globe thistle. Globes are larger and of a blue much deeper in color than the ordinary echinops ritro. It blooms on stalks about $3\frac{1}{2}$ feet tall in July, and if cut back when through blooming, it will bloom again in September on shorter stems. Very effective in the garden, and a long-lasting cut flower. Strong divisions from the field, 3 for \$1.00; 10 for \$2.00; 100 for \$15.00.

Small orders can be shipped by parcel post if postage is included; any amount in excess will be refunded.

Collections

No. Garden Chrysanthemums

1.	Chrysanthemums, low growing and cushion types, 50 each of 10 kinds in a good selection of varieties of our choice, 500 plants, labeled	\$18.00
